England, Lord Derby had given assurance that the Government contemplated no change in the

port departure of the steamers for America. Sir J. Packington, Colonial Secretary, had brought in a bill giving a representation and constitution to the colony of New Zealand

A distinguished committee had waited on the American Minister, asking his co-operation in to or of a reduction in ocean postage, which met his cordial approval, and he promised to call the attention of the United States Government to the matter.

A communication from the superintendent of the English company sent to California to take possession of Col. Fremont's property states that the difficulties relative to title, &c., had induced him to abandon Fremont's alleged land.

France. The Journal des Debats is strongly in favor of the American expedition to Japan, and says it is the realization of the dream of Christopher Columbus.

The Paris papers state that refusals to take the oath of allegiance to the Constitution and the President are more numerous than were expected. Several members of the Councile General had refused, and some members of the Tribunal of Commerce had been suspended in consequence of their refusal to take the oath. The 10th of May fete excites great enthusi

asm in the army. The reported diminution of the French army at Rome is unfounded.

Markets.

LIVERPOOL, May 5. The market is unaltered, except that purchasers have greater choice.

Breadstuffs .- Makin's circular quotes large arrivals of corn, flour, and wheat, from the United States, including 63,256 barrels of flour for the week ending on Tuesday. In the market, on Tuesday, wheat declined fully 1d., and flour 6d. There was a fair demand for corn, and last week's prices were fully maintained.

TWO WEEKS LATER FROM CALIFORNIA.

The steamer Daniel Webster arrived at New York last night, in eight days from San Juan She brings California advices to April 16th. 305 passengers, and \$400,000 in gold on freight and in the hands of passengers. The sloop of war Decatur sailed from San

Juan for Pensacola on May 2d. Business at San Francisco was brisk, and all

kinds of desirable goods were improving in price. The mining news continues favorable.

The steamers Independence, Oregon, Northerner, with New York dates to March 9th, had arrived at San Francisco.

The mail steamer would leave San Francisco on the 19th, but the probable amount of gold

is not stated. The account of the massacre of the Klamath Indians by the whites is confirmed.

It was rumored at Sacramento on the 10th that the Indians in Scott's Valley had murdered 150 whites, and stole property to the amount of \$250,000. The Senators from Klamath and Shasta had applied to the Governor for aid to expel the Indians.

The sloop of war Vincennes had arrived at San Francisco; all on board were well. A meeting had been held at San Francisc relative to building a railroad across the conti-

The whale ship John and Elizabeth reports having experienced a severe shock of an earthquake in February, and subsequently discovered

that the Grampus Islands had been swallowed up, being covered with water to the depth of thirty fathoms. Another island near by was also swallowed up.

UNFORTUNATE AFFAIR BETWEEN TWO REL-ATIVES .- Hon. Edward A. Hannegan, late U. S Senator for Indiana, and Capt. Duncan, his brother-in-law, living in the same house at Cov-ington, Indiana, on the most friendly terms, had derstanding on the instant. It appears that on the day and evening previous they had both been drinking, and that on the morning of the sad occurrence, Captain Duncan went up stairs to Mr. Hannegan's room, and an altercation ensued between the parties, when Captain Duncan gave Mr. Hannegan a slap in the face. Mr. Hannegan, uponthe formula of the formula of the the indignity he felt, and the impulse of moment, struck Captain Duncan with a knife in the lower part of the stomach, inflicting a severe, and, what is thought, a dangerous wound. Mr. Hannegan, recovering from his passions, aroused by the supposed indignity, suffers the most excruciating tortures in the reflection that he has perhaps, struck down as kind a friend as he has on earth. A rumor reached Cincinnati in the early part of the week that Duncan had died of his wound.

LARGE CLAIM .- The Natchez Free Trader learns, from undoubted authority, that Jefferson College, in Washington, near Natchez, has recently been discovered to be entitled to twenty acres of land, situated in the centre of the business portion of the city of Mobile-a property worth, at the least estimate, half a milli of dollars. This landed interest accrued to the college under the Territorial Government of Mississippi, when a portion of the present State of Alabama was included in the limits of Mississippi Territory, and arose under the law of escheat—the twenty acres having been escheated, and thus having become college property by law. The Board of Trustees have reeminent counsel, and a suit will be forthwith instituted for the recovery of the land to the college; while, at the same time, observes the Free Trader, the Board of Trustees express a willingness to compromise, and give a quitclaim on the most accommodating terms.

This property is now worth many millions of dollars!

How to Succeed .- The Boston Transcript tells a story of a merchant who, after having been in business a year or so, found that he was running behind. On consulting with his friends, they advised him to join the church and an engine company, to make himself known. He did both, but failed in a few months. He commenced again, and this time took to advertising and circulating handhills, cards, &c., and succeeded perfectly.

A work that promises to be interesting is now in the press in England, and will shortly make its appearance. The author is Geor-gey, the Hungarian ex-chief; the work is en-titled, "My Life and Acts in the Years 1848 and 1849.

"Have you ever broken a horse?" inquired a horse-jockey. "No, not exactly," replied Simon, "but I have broken three or four wag-

The Supreme Court of New York has granted Mrs. Nancy Beach a divorce from Moses Y. Beach, on the ground of infidelity.

Protection from Lightning.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of Spraat's Electrican and Electro-Metallubous Lightning.

The undersigned, being the duly appointed Agent of Spraat's Electrican and Electro-Metallubous Lightning.

In these superior Rods, of Spiral-swisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum silver point, (patented,) truelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fraginitient and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,
Washington City.

Washington City.

I do hereby certify that I have app lied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of sodium, (common salt.) acetic acid, sulphuric acid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was no action on the sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem. UNIVERSITY OF GA., October 8, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are

are well calculated to perform the office for which they are intended. Yours, truly, Prof. ROBT, PETER. LEXINGTON, KY., February 20, 1850. Chicago, September 3, 1850.

Chicago, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

for my inspection.

AUGUSTA, (G.A.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS,
Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith,

Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable. R. SILIMAN, Jr., Prof. of Chem. in the University of Louisville. Louisville, January 27, 1861.

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Cheaistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

THIRTY-SECOND CONGRESS.

Term commences March 4, 1851, and terminates March 4, 1853.

The First Session opens on Monday, December 1, 1851.

SENATE. The Senate consists of two Senators from each State. Since the admission of California, there are thirty-one States, represented by sixty-two Senators. The Senators who held over from the 4th of last March were forty-one, viz: eighteen Whigs and twenty-three Democrats. Of the twenty-one new Senators, three are yet to be elected from the following States:

Connecticut, (one vacancy)-Democratic legislature just elected. SENATORS HOLDING OVER AND ELECT. Whigs in italic; Democrats in roman—those marked F. S. are Free-soilers or Abolitionists; U., those elected as Union men; S. R., those elected as Southern or State Rights men.

CLASSICAL, MATHEMATICAL, AND COM-MERCIAL INSTITUTE,

Under the care of Rev. Alfred Holmead, Rector, and Mr. Charles Tucker, A. M.

THE DUTIES of this Institution will be resumed on the 18th of August, in the lower Saloon of Mr. Cathe 18th of August, in the lower Saloon of Mr. Carusi's building.

In English, Mathematics, Greek, Latin, and French, the course will be full and thorough. Pupils fitted for the Counting-room or College.

The experience of fitteen years, in the management of boys, induces the confident belief that the satisfaction expressed by their numerous former patrons, both in Maryland and Virginia, will be shared by those who may be pleased to entrust the education of their sons to their

reare.

For terms and further information apply to the Rector, the Rev. Alfred Holmead, at his residence on B street, between 9th and 10th, opposite Smithsonian Institute.

jy 29—dtf

JAMES W. SHEAHAN. Attorney and Counsellor at Law,

(Late of Warrenton, Va.)

OFFICE and Residence—F street, north side, one door above 10th.

WONDER-WORKING SALVE. DR. PORTER'S WONDER-WORKING SALVE, as prepared by the late Dr. TAILEY, of this city, acts like a charm, invariably effecting permanent cures in all cases of Wounds, Bruises, Burns, Scalds, Chilblains, Painfail Swellings, Biles, Piles, Abscesses, Ulcers, and Sores of all kinds. It is wonderfully efficacious for Infammation or rising of the FEMALE BREAST, or inflammation arising from any

cause.

As a lip salve, and for chapped hands, it has no superior. It will make a perfect cure in a hurry.

The subscriber has used it in his own family with astonishing success, and can recommend it with confidence. And so well assured is the PROPRIETOR of its efficacy, that the purchaser will be at liberty to return what salve is left and his money be refunded in case of failure.

AMERICAN HOUSE, HANOVER STREET, BOSTON.

THE Undersigned having entirely rebuilt and enlarged the above extensive establishment, containing in all about three hundred and fifty rooms; would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect. The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawingrooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manuer, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home.

LEWIS RICE.
